

The Analyser Experts

For the last 25 years Analox have been designing and manufacturing analysers for military and commercial divers. We are breathing air specialists. Analox now offers the complete sport diving analysis package - Nitrox, Trimix and Carbon Monoxide.

Let Analox look after the air **you** breathe

Specifications

Range:	0 - 25ppm
Accuracy:	+/- 1ppm @ CTP
Sensor Life (Expected):	2 years
Sensor Life (Warranty):	1 year
Electronics Warranty:	1 year
Operating Temperature:	0 - 40°C (32 - 104°F)
Weight:	400g (0.8lbs)
Dimensions:	175 x130 x 70mm (6.8 x 5.11 x 2.75 inches)

ANALOX

looking after the air **you** breathe®

Ensure you're selling a CO free mix

Analox CO Clear™

Carbon Monoxide

Carbon Monoxide is a highly toxic gas which cannot be detected by sight or smell. When Carbon Monoxide is inhaled it bonds with haemoglobin and forms carboxyhaemoglobin. This affects the ability of blood to carry oxygen around the body.

It only takes a small concentration of Carbon Monoxide, breathed at pressure, to affect the human body. Symptoms of CO poisoning can include headache, fatigue, confusion and dizziness. However prolonged exposure could lead to unconsciousness, brain damage or even death.

The Solution

The Analox *CO Clear*TM is a fixed alarm, designed to be used by air stations. It continuously monitors for high levels of Carbon Monoxide contamination from compressors.

CO Sensor

Analox *CO Clear*TM - Features and Benefits to You

1 Enhanced Customer Service

By installing an Analox *CO Clear*TM you can assure your customers that their tank fills are free from Carbon Monoxide. Your customers will have faith in their mix knowing it has been continuously monitored. Go above and beyond - fit an Analox *CO Clear*TM

*CO Clear*TM in use

2 Continuous Safety Protection

The Analox *CO Clear*TM eliminates the possibility of unknown Carbon Monoxide contamination as your compressor is monitored continuously, 24-7 not once every 3-6 months.

3 Cost Effective

The Analox *CO Clear*TM is a fixed analyser. Once fitted you will only need to change the sensor every two years.

4 Visual and Audible Alarm Warnings

The Analox *CO Clear*TM offers both audible and visual alarms to high levels of Carbon Monoxide - perfect for a busy and noisy compressor room

5 Ease of Use

The Analox *CO Clear*TM is extremely easy to fit and connect. It does not require an engineer to maintain, calibration and sensor changes are easy to complete. Full instructions are available on the website.
